

Susan King  
AA, LEED AP

PRINCIPAL  
Harley Ellis Devereaux  
GreenWorks Studio

Recently identified as a sustainable magician by i4design magazine and included among their 16 people to watch in 2008, Ms. King's sustainable design expertise is rooted in her work with the design of socially responsible housing. This type of housing goes hand in hand with shoestring budgets and a belief that sustainability, affordability and good practice are inseparable. As a principal and a LEED AP with Harley Ellis Devereaux, she leads multi-disciplinary teams in achieving aesthetically appealing sustainable solutions. She also leads GreenWorks Studio, a partner company of Harley Ellis Devereaux, on a national level.
